Tentative Decision to Approve Corrective Measures  
Implementation Plan  
EPA ID# KYD 061 557 054  
AI # 3241**

The Kentucky Environmental and Public Protection Cabinet (The Cabinet), Division of Waste Management (KDWM), has tentatively decided to approve the Corrective Measures Implementation Plan (The CMI Plan) for Dyno Nobel, previously known as Ensign Bickford. The Plan includes a proposal for excavating gasoline contaminated soils from one area and placing usage restrictions on three areas of the property. The site contact is Brad Summers, who may be reached at (270) 338-4200, ext. 279.

**Why does Dyno Nobel need to perform corrective measures?**

The purpose of the CMI Plan is to provide details of how any contaminated lands are remediated and/or managed to be protective of human health and the environment. Dyno Nobel has managed hazardous materials at the site as part of its manufacturing processes. Wastes present at the site that need to be remediated include soil contaminated with explosives residues and gasoline. The CMI Plan describes how contaminated soils will be excavated from one area and managed in place in three areas. The management includes restricting contact with contaminated media by physical and legal means. Property use of the two areas will be restricted in accordance with an environmental covenant. The environmental covenant will remain in place in perpetuity.

**How can I tell the Division what I think about this tentative decision?**

The Cabinet encourages public involvement and welcomes comments. Anyone wishing to comment on this tentative decision should submit comments to the Cabinet on or before July 15, 2009, the close of the public comment period. Electronic comments should be submitted to [kelly.neal@ky.gov](mailto:kelly.neal@ky.gov) or mailed to: April Webb, P.E., Branch Manager, Hazardous Waste Branch, Division of Waste Management, 200 Fair Oaks Lane, Frankfort, KY 40601, (502) 564-6716.
